Education

Silicon University

MCA

2022 – 2024

Bhubaneswar

Gayatri +3 Science College

B.Sc (Computer Science)

2018 – 2021

Rourkela

Technical Skills

Languages: Python, JavaScript, TypeScript, SQL

Web: HTML, CSS, React.js, Next.js, Node.js, jQuery, API's, JSON

Database: PostgreSQL, MySQL, MongoDB

Technologies/Frameworks: GitHub, Postman, Clerk

Soft Skills: Communication, Problem-Solving, Adaptability, Team Player

Experience

MERN Stack Internship

Aug 2023 – Sept 2023

Prep Labs

- Gained hands-on experience in developing full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Worked on creating RESTful APIs and integrated them with responsive front-end designs to deliver dynamic user experiences.
- Deployed applications and maintained projects using version control tools like Git and GitHub.

Projects

AI Mock Interview App | Next.js, Drizzle ORM, Gemini AI, Clerk

- Developed an AI-powered mock interview platform using Next.js, leveraging Gemini AI for real-time question generation and feedback.
- Implemented user authentication and role-based access using Clerk, ensuring secure and personalized interview sessions.
- Integrated Drizzle ORM for efficient database management, optimizing performance and query execution.
- Enhanced user experience with dynamic content updates and interactive question-answer sessions.

TRIPEASE | React.js, Express.js, Node.js, MongoDB, JWT

- Collaborated in a team of three to design and develop a full-stack travel and tourism platform using the MERN stack, integrating booking systems for seamless user functionality.
- Focused on both front-end and back-end development, implementing responsive UI components and optimizing API performance for a smooth user experience.
- Implemented secure authentication and authorization using JWT, ensuring data security and user privacy.

Diesel-Clone | React.js, CSS (Sass), Express.js, Node.js, Bootstrap, Axios

- Created a responsive e-commerce application clone with React.js and Bootstrap, ensuring cross-device compatibility and smooth UX.
- Integrated APIs using Axios for seamless product retrieval and implemented error-handling mechanisms to improve app reliability.

Pokédex Web App | React.js, Styled Components, SignalR, Context API, PokéAPI

- Developed a feature-rich Pokédex Web App with React, enabling users to search, filter, and manage Pokémon dynamically.
- Integrated real-time Pokémon updates using WebSockets (SignalR) and implemented a responsive UI.
- Implemented user authentication, profile management, and secure account deletion using Context API for efficient state management.

Certificates

Web Development Bootcamp

Udemy(2024)

HTML, CSS, JavaScript, Node, React, PostgreSQL
