Education

Silicon University

MCA

2022 – 2024

Bhubaneswar

Gayatri +3 Science College

B.Sc (Computer Science)

2018 – 2021

Rourkela

Technical Skills

Languages: Python, JavaScript (ES6+), TypeScript, SQL

Frontend: HTML, CSS, React.js, State Management, TailwindCSS

Backend: Node.js, Express.js, RESTful API

Databases: PostgreSQL, MySQL, MongoDB

ORM / Tools: Redis, Docker, Postman, Bitbucket, GitHub, JIRA, Socket.IO

CS Fundamentals: DSA, Object-Oriented Programming (OOP), OS, Software Development Life Cycle (SDLC)

Soft Skills: Communication, Problem-Solving, Adaptability, Team Player, fast-paced adaptability, Agile Development

Experience

Fullstack Developer

Ishvara Tech

Apr 2025 – Present

Bhubaneswar, India

- Developed and delivered full-stack features across multiple client projects, ensuring high performance, reliability, and scalability.
- Built REST APIs, optimized database queries, and implemented Redis caching to reduce latency and improve backend throughput.
- Created responsive, modular React components and integrated them with secure, production-ready backend services.
- Resolved critical production bugs to improve system stability and application reliability.
- Collaborated with cross-functional teams and contributed to 50+ high-quality PRs with clean, testable, and well-documented code.

MERN Stack Internship

Prep Labs

Aug 2023 – Sept 2023

- Built full-stack web applications using MongoDB, Express, React and Node.js.
- Designed and implemented RESTful APIs and integrated them with responsive React interfaces.
- Used Git and GitHub for version control and collaborated within the team on testing and deployment tasks.

Projects

Portfolio 📁

React.js, Vite, TailwindCSS, JavaScript

- Built a personal portfolio website using React.js to showcase projects, technical skills, and professional experience.
- Implemented responsive UI components using TailwindCSS to support mobile, tablet, and desktop devices.
- Optimized frontend performance and code structure for faster load times and maintainability.

ReachHub (Client Project)

React.js, Node.js, Sequelize, Javascript, MySQL, Socket.IO

- Developed a lead management system to upload, store, and manage large contact datasets.
- Integrated third-party APIs for bulk email and phone number validation to improve lead data quality.
- Built an email campaign system with tracking for opens, clicks, deliveries, and unsubscribes.
- Implemented real-time dashboards using Socket.IO for live campaign and user activity updates.
- Designed a credit-based usage control system to manage resource consumption and prevent misuse.

CampaignCraft (Client Project)

React.js, Node.js, TypeScript, Supabase, Prisma, TailwindCSS

- Built a full-stack advertising campaign platform supporting image, audio, and video content.
- Implemented role-based access control (RBAC) for users, admins, and agencies.
- Developed dynamic landing-page generation for organizations with auto-created signup links.
- Added agency and white-label support for multi-tenant onboarding and branding.
- Used Supabase (PostgreSQL) and Prisma ORM to manage relational data and database operations.

Certificates

Web Development Bootcamp

Completion: Sep 2024

Certificate
