Career Objective

Fullstack Developer experienced in building responsive frontends and reliable backend services using React and Node.js. Looking to apply practical experience with databases and modern tooling to build stable, maintainable products within a collaborative team.

Education

Silicon University

MCA

2022 – 2024

Bhubaneswar

Gayatri +3 Science College

B.Sc (Computer Science)

2018 – 2021

Rourkela

Technical Skills

Languages: Python, JavaScript (ES6+), TypeScript, Java, SQL

Frontend: HTML, CSS, React.js, Redux, TailwindCSS

Backend: Node.js, Express.js, RESTful API Design

Databases: PostgreSQL, MySQL, MongoDB, Supabase

ORM / Tools: Prisma, Sequelize, Clerk Auth, Postman, Bitbucket, GitHub, JIRA, Socket.IO

CS Fundamentals: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP)

Soft Skills: Communication, Problem-Solving, Adaptability, Team Player, Agile Development

Experience

Fullstack Developer

Apr 2025 – Present

Ishvara Tech

- Designed and implemented a lead management platform with profile search, advanced filters, data import, and email/phone validation features.
- Built manual and automated campaign flows using a block-based automation builder and integrated a credit-based usage model. (*JavaScript, React, Node.js, MySQL, Sequelize, TailwindCSS*)
- Created real-time analytics dashboards for campaign monitoring and reporting.
- Developed a multi-channel marketing platform from scratch to support campaigns across OTT and social media channels.
- Implemented onboarding flows and secure authentication; optimized backend queries and database interactions using Prisma and PostgreSQL. (*TypeScript, Supabase, Clerk Auth, PostgreSQL, Prisma*)
- Worked with designers, product and QA engineers to deliver features on schedule and maintain code quality through reviews and refactoring.

MERN Stack Internship

Aug 2023 – Sept 2023

Prep Labs

- Built and deployed full-stack web applications using MongoDB, Express, React and Node.js.
- Designed and implemented RESTful APIs and integrated them with responsive React interfaces.
- Used Git and GitHub for version control and collaborated within the team on testing and deployment tasks.

Projects

TRIPEASE

React.js, Node.js, Express.js, MongoDB, JWT

- Built a travel and booking platform as part of a 3-member team, integrating booking and payment workflows.
- Implemented responsive UI components and secured APIs with JWT-based authentication.

Pokédex Web App

React.js, Context API, Styled Components, PokéAPI

- Created a responsive Pokédex with search and filtering; used WebSockets for live updates.
- Applied Context API for state management and optimized component rendering for performance.

Certificates

Web Development Bootcamp

Udemy

Completion: Sep 2024
